The wine year 2020

The wine year 2020 started dry and sunny, with ideal conditions for pruning. The warm, humid spring required intensive work in the vineyards. Only in this way could we later aerate the grapes in the best way. The cool June was the month of flowering, followed by two more intense months in the vineyards. Every single grapevine was treated selectively and individually. Early September brought the perfect ripening in the vineyards so that we started the shortest harvest in Tement history on September 21, with over 150 helping hands. Now the firstclass qualities mature in the cellar, which are exceptionally clear, harmonious and structured.
